8. What aspects of this workshop did you find most helpful?

Everything was helpful to me and the workshop was well organized.
The materials provided good examples.
Specific Examples.
You explained the basics and worked up to more complex. Great handouts.
The Instructor was friendly, knowledgeable, and attentive to student's questions.
Careful, thorough review of subject.
Handout of power point presentation, I will use this as a reference in the future.
Copyright compliance and Electronic Resources Management System.
Very good explanation of licenses and the negotiation process. Very practical tips and ideas given.
The accompanying articles, information and power point materials that I could refer to BEFORE the workshop, DURING and will be able to use afterwards.
All good content.
Copyright.
The course was VERY comprehensive—all of which was useful to me.
The handouts are nicely done.

9. What aspects of this workshop, if any, would you like to see changed, expanded, or shortened?

Less copyright.
Just continue to evolve to incorporate relevant info...what is going on in Mobile and tools like QR codes.
N/A
All good content.
If possible more interaction from participants but that is difficult with so much information to get through. I valued the detail and also the breadth of information.
None.
May be a little more on negotiations, may be a little less on copyright.
There was a detailed introduction prior to the main presentation. I feel that a shorter introduction would (leave) all (the) more time for the detailed discussion.
I would love to attend another workshop with you to learn more about copyright.

10. Any other comments?

Anjana was so well prepared and she kept us on course. VERY well done!
Excellent, Thank You.
Very good presentation!...Thank you!
I am just getting started negating licenses, so this was an invaluable opportunity. I am just a librarian, but I have worked in the collection library, so I do have a good deal of familiarity with a lot of what was desired. I fell much more confident in my ability to do the job going forward.
Great Job!
Excellent-Thank you so much for educating us on such a complex topic.
All the information sent before the workshop was helpful and please be sure to send to the participants the additional information mentioned.
